COMMUNITY CLEAN UP

Litter can cause problems for animals and humans alike. And besides, who likes to look at garbage in their community?

What can you do?

Organizing a Community Clean up shows that you want to take care of our planet. And it makes it less likely that people will want to dirty it up again. But it can also be fun, too! Make a game of it. Split up into pairs and see who can gather the most items.

How can you do it?

- Decide where you want to clean up. Is it a park? The beach? What needs your attention?
- Round up friends to help you!

What You'll Need

- Large Garbage bags (2 for each pair – one for recycling and one for trash)
- Rubber or latex Gloves

Start Your Clean Up!

Print out the attached list and review it with your partner or group. Every time you pick up a piece of trash, check it off the list! Make sure you also separate regular trash from recyclables. Also make sure you set a time limit, so you have a goal in mind.

Take some pictures!

Don't forget to take some pictures of you in action! We love to share stories of our virtual ambassadors. If you take a picture, post it! Tag us @perfectworldfdn and your picture will show up on our homepage AND on our social media sites.

After the Clean Up

Properly dispose of the trash and recycle the recyclables. Then check out your list... how many items did you clean up today?
